

MUCH COLDER IS PREDICTION MADE BY WEATHER MAN

Freezing Weather and Frost Predicted for Florida and Georgia.

COLD SNAP WILL CONTINUE OVER SATURDAY IS FORECAST

Clear, Cold Weather Follows March Blizzard In Western States.

Washington, March 5.—The March blizzard, which overspread the middle-west yesterday with snow and low temperatures, will reach the Atlantic coast tonight, the weather bureau predicted today. The strength of the blizzard, it was said, had been dissipated in part and although the rain falling along the eastern seaboard today will turn to snow, the fall will be light. It will be followed by much colder weather.

Snow as far south as northern Alabama and unusually low temperatures over the entire south was forecast. Below freezing weather was said to be in store for interior Georgia and another frost was expected for Florida. The blizzard has left clear cold weather in its middlewestern wake and prediction of similar weather was made for tomorrow.

COLD WEATHER STOPS ICE GORGE AT TOLEDO

Toledo, March 5.—Cold weather and snow, which have been sweeping eastward, reached Toledo during the night, and caused thermometers to fall from 45 to 28 degrees above by morning. Snow accompanied the drop in temperature. Colder weather, however, averted danger from an ice gorge reported forming up the Maumee river from Toledo. At Maumee village the river is reported six inches above normal and rising rapidly. The gorge, which had started moving during the night, stopped after dawn because of the increasing cold.

MICHIGAN IN GRIP OF MARCH BLIZZARD

Detroit, March 5.—Michigan was in the grip of a March blizzard today. Heavy snowfall, high winds and near-zero temperatures were reported from various parts of the state. Heavy snowfall that paralyzed practically all traffic was also reported from many Lake Michigan shore cities.

WAGE CONFERENCE FOR RAIL EMPLOYEES

Washington, March 5.—Preliminary arrangements are being made by representatives of railroad employees and executives for the opening of negotiations on wages and working conditions here early next week. Director General Hines, who has charge of the conference, planned to issue a call for the meeting for Tuesday or Wednesday. Railroad executives were expected to select their representatives on the conference committee at a meeting at New York today. Employees already have chosen representation through the heads of the 15 unions. When the actual task of working out the question of wages and working conditions begins, it is understood that the membership of labor's delegation will be changed.

BANK FAILURE MAY CAUSE THIRD SUICIDE

New Philadelphia, March 5.—Two suicides, which are the third of the result of failure last summer of the Mineral City bank. Levi Ackerman ended his life last June when the bank failed and after D. O. Van Kirk, who had been admitted in common pleas court here yesterday by Alvin Schott, her nephew. Schott said under cross-examination his aunt had been missing since last Saturday. This testimony was offered during a suit started by George Ackerman, son of the dead man, to break his father's will.

STEAL TWO HORSES FROM NASHPORT BARN

Two horses belonging to the Jewel Tea company were stolen from the barn of the driver of one of the company's wagons, whose name is Martin and who resides at Nashport. The barn was broken into sometime last night and a black horse ten years old and a small bay mare and harness was also taken. The wagon was also broken into but it is not known what was taken. The horse stealing is the first to occur in this vicinity for some time and it was reported to the Zanesville officials who are notifying towns and nearby cities.

JURY FINDS MURDER

Akron, March 5.—Peter Cafarelli, on trial for the second time charged with first degree murder, was found guilty by a jury of twelve men and one woman on March 3, 1919, escaped the death chair. After eighteen hours of deliberation the jury today returned a verdict of guilty but recommended mercy. Cafarelli will serve a life sentence and will be confined in his first trial. An error in jury service, however, knocked out this verdict.

AWARDS BIG DAMAGE IN STEAMER WRECK

Cleveland, March 5.—Damages which may reach \$50,000 were assessed against the steamer A. M. Myers, in a decision handed down by Federal Judge D. C. Westenhaver, as the result of a collision between that vessel and the John B. Cowle in the St. Clair river on May 12 last. In his decision Judge Westenhaver held that the fault rested solely with the Myers in running too close to the bank. The Cowle's owner put in a claim for \$50,000 damages, and the Myers put in a counter claim for \$44,000 damages. Judge Westenhaver ordered the damages assessed against the Myers in an amount to be fixed after the taking of damage evidence by a commissioner.

EMPLOYEES GRANT OWN INCREASE IN WAGES

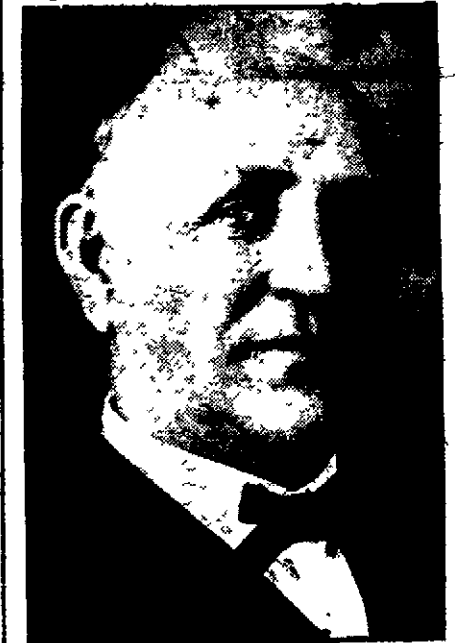

Cleveland, March 5.—Employees of the Reliable Stove company, a branch of the American Stove company here, through their employees congress, have awarded themselves a wage increase on hourly rates averaging 11 per cent. The increase resulted from an investigation of wages paid in eight metal working plants here conducted by factory workers and members of a workers' union named by the congress. The congress is elected from among the employees.

J. C. BUTTE DIES; ILL FOUR WEEKS

County Commissioner Succumbs After Suffering a Relapse Following Attack Of Influenza Four Weeks Ago.

County Commissioner J. C. Butte, aged 54 years, died at his home, 103 East Church street, Thursday evening at 5 o'clock, after a four weeks' illness resulting from an attack of influenza. He received a backset a couple of weeks ago and death was directly due to intestinal indigestion.

Commissioner Butte was one of the best known men in the county. He was born near Johnstown and lived on

J. C. BUTTE.

The Butte farm about one mile south of the village on the Newark-Johnstown pike for many years. He was elected county commissioner in 1917, and was serving his second term, which began September 17, 1919. He made a splendid official and carefully looked after the interest of the taxpayers in all matters pertaining to his office. He was also an enthusiastic good roads man and favored all legislation along those lines.

He is survived by his widow, Mrs. Frances Butte, two sons and two daughters. Sergeant Durwin Butte, who is attending school in Chicago, Harold, employed at the court house, Mrs. Bernard Lake, residing on the home farm and Miss Ruth at home.

The funeral will take place at Johnstown Sunday afternoon at 2 o'clock, conducted by Rev. Benjamin R. Weid of this city. Mr. Butte having been a member of the Second Presbyterian church in Johnstown in the village cemetery.

Friends have been asked to call at the home Saturday and Sunday forenoons.

THREE WILL NAME J. C. BUTTE'S SUCCESSOR

The death of Commissioner J. C. Butte leaves a vacancy or unexpired term of one and a half years, which will be filled by appointment, the statutes providing that the county prothonotary, auditor and recorder shall name the person to fill the vacancy. This will probably be done next week.

OBJECTS TO CLEMENCY IN WAR FRAUD CASE

Detroit, March 5.—Argument on a plea for dismissal of the verdict of guilty against Sotodious Nicholson, convicted with Grant, Hugh Browne and Lester Waterbury on charges of conspiracy to defraud the government, were heard by Judge Tuttle, in federal district court today. The jury, which returned its verdict last night, recommended mercy. Nicholson and Judge Tuttle indicated his approval of the recommendation, but District Attorney Kinnear entered objection and the argument was put over today. Attorney for Browne and Waterbury filed notice of appeal. Earl Harris, New York; Fred C. Collin, Detroit; and Monroe H. Birdach, Albany, N. Y., were acquitted.

AMENDMENT DOES NOT MEAN BREAK REPUBLICANS SAY

Provides That League Delegate Shall Be Named In Congress.

FIGHT DRIFTS TO ARTICLE 10 WHILE DEBATE CONTINUES

Senate Considers Clause Dealing With Reparation Commission.

Washington, March 5.—Efforts were being made today to take stock of the senate peace treaty situation on the basis of the Walsh reservation adopted yesterday after a sharp political tilt. Adoption of his reservation providing that American representatives in the League of Nations be chosen by congressional action marked the first break in the solid Republican ranks, which had stood firmly in favor of the so-called reservation program.

During the controversy over the Walsh reservation, the fight shifted to the Article 10 reservation, one of the main obstacles to ratification. Senators of both parties brought their consultations to a point where the advice of President Wilson was sought directly on proposed changes in the Republican reservation. No word had come early today from the White House.

As adopted the Walsh reservation contains with agreements reached at the recent bi-partisan conference. Individual senators declared that adoption of the reservation did not indicate a change in sentiment although Senator Kellogg, Republican, Minnesota, a mild reservationist, declared he could not follow the leadership of Senator Lodge of Massachusetts, in his decision to have nothing more to do with the compromise agreement tentatively reached in the bi-partisan conference.

The senate today had before it the reservation dealing with the activities of the reparation commission in so far as it related to exposure of the United States to Germany. The reservation follows: "The United States understands that the reparation commission will regulate or interfere with export from the United States to Germany or from Germany to the United States only when the United States by act or joint resolution of congress approves such regulation of interference."

LEE DURANT IS BADLY INJURED

Street Car On Which He Was Motorman Collides With Heavy Truck.

A south bound city car in charge of Conductor H. J. Durant, was struck by a heavy truck at the corner of South Williams and Maholin streets at about 2:30 this afternoon and Motorman Durant was badly injured. The driver of the truck, who was jumping and none of the passengers on the car was injured.

Bradley's ambulance made the run and the injured man was taken to the City Hospital. Dr. D. M. Smith attended him. He had a number of bruises and cuts, with a deep cut under the chin. There was a contusion on the leg and one of the hip bones is either broken or dislocated. Durant resides in 147 Elwood avenue.

POPULATION FIGURES SHOW BIG INCREASES

Washington, March 5.—Population announcements for 1920 issued today by the census bureau showed big increases in Lexington, Ky., 41,534, an increase of 6,435 or 18.3 per cent. Joliet, Ill., 38,727, an increase of 3,702 or 10.7 per cent. Anderson, Ind., 29,787, an increase of 2,291 or 7.7 per cent. Muncie, Ind., 29,787, an increase of 12,519 or 52.2 per cent. Shreveport, La., 43,874, an increase of 15,359 or 55.6 per cent. Kingston, N. Y., 25,584, a decrease of 24, or .01 per cent.

FENBERG'S CAR IS WRECKED; HE ESCAPES

Geo. M. Fenberg, driving his Hal-12 car last evening, ran into a ditch at the railroad crossing just west of Columbia Center. Fenberg heard the whistle of an engine on the railroad near the crossing and turning his head an instant, shot into the ditch. The driver escaped injury. A number of men, assisted by two machines endeavored to pull the car from the ditch but could not manage it and a guard was employed and stayed with the car all night. This morning a wrecking car was sent out and towed the disabled Hal southeast to Columbia Center.

DEATH LIST MAY GROW

Sharon, Pa., March 5.—Four more victims may be added to the three men who were instantly killed by an explosion at the Carnegie Steel company's plant here late yesterday, as physicians believe the four are fatally burned. The blast occurred while the men were working at a hot blast stove near a blast furnace. Their clothing was burned off when a shower of red hot ore dust enveloped them.

PURCHASE BY U. S. OF BERMUDA ISLANDS IS PROPOSED

General view of main harbor of the Bermudas.

Senator Kenyon of Iowa has offered a resolution requesting the U. S. government to open negotiations with the British government for the purchase of the Bermudas.

Islands. Kenyon points out that the Bermudas occupy a strategic position lying between the coast of the U. S. and the Virgin Islands, recently acquired from Denmark.

He points out that, considering the huge sum Great Britain owes the U. S. a satisfactory deal might be arranged. The Bermudas are known for their sunny climate.

MAY REFUSE TO ACCEPT TREATY

New Turkish Cabinet Will Demand Recognition of Nationalists By Allied Premiers.

Constantinople, March 5.—Turkish nationalists are expected to be prominent in the new cabinet and such prominent figures as Bolik Bey, deputy for Sivas and even Mustafa Kemal, nationalist leader in Anatolia may have places. It is considered probable that the new cabinet will strongly oppose ratification of a peace treaty if it does not recognize claims of the nationalists. Allied high commissioners here have been insisting the cabinet should better conditions in Anatolia, especially since recent disorders at Marash and in Cilicia. The Constantinople government has virtually been powerless as Mustafa Kemal has been in full control in Anatolia.

While the announcement that the Turks will be left in Constantinople has been welcomed by the British, French and Italian hold Constantinople and the straits securely with their allied forces. The British navy, allied to the Greek army, is being vigorously contested. Mustafa Kemal's organized forces are variously estimated from 500,000 to 1,000,000 with the cooperation of various tribes and Kurds bands. His supporters predict war this spring or sooner, if the Greeks are left in Smyrna and the French in Cilicia.

Through their control of the Turkish chamber of deputies he asserted Mustafa Kemal's nationalists virtually dominate the Constantinople government and laugh at allied threats to the Sultan and allied naval displays in the straits.

UNION MINERS MUST BE CITIZENS

Ohio Mine Workers Amend Constitution to Bar Aliens Who Have Not Been Naturalized.

Columbus, March 5.—Hereafter a declaration of citizenship by a foreigner will not be sufficient to secure membership in the United Mine Workers of Ohio. He must actually become a citizen. Ohio miners in session here amended their constitution making citizenship a condition on all members of the organization.

Two years ago, the constitution of the Ohio mine workers was amended requiring declaration of intention to become a citizen, a condition of membership. This, however, was found not to accomplish the desired result in bringing about citizenship of the foreign born workers as many did not complete the citizenship process.

The union also decided to conduct an educational campaign among alien giving them every assistance necessary in preparing for examinations for complete citizenship. President John Moore told the miners they cannot expect to yield much influence as an organization at the ballot box if they do not possess the right of suffrage.

CLEVELAND POLICE CAPTURE 3 STILL

Cleveland, March 5.—Three whiskey stills and the alleged distillers were rounded up by police early today. One complete still in operation was found in the basement of the home of Samuel Bernick, 2200 E. 12th street, and another in the attic of Berko was found for federal authorities.

Fanks and Aaron Korn, brothers, in whose home police say, a still and 48 gallons of gin much were seized, were also held for federal authorities. Chris March 5.—The storthing today voted 190 to 20 in favor of the adherence of Norway to the League of Nations.

MAY REPEAL RULE TO GET VOTE ON SUFFRAGE

Charleston, W. Va., March 5.—Ratification of the federal suffrage amendment is not yet defeated in the West Virginia legislature, if the program of the leaders of the senate in favor of suffrage is carried out. The rule under which the senate is precluded from voting on the ratification of the suffrage amendment, following failure of reconsideration yesterday, is a senate rule, not a constitutional rule, and can be amended by a majority vote of that body.

The plan is to hold the senate in session, by means of the 14 suffrage votes in preventing final adjournment until Senator Jesse A. Block returns from California. A majority is required to adjourn the same as to record an affirmative vote on any other question. When Senator Block arrives, according to the reported program, the senate will proceed to amend the rule relating to reconsideration of its actions, reconsider the vote by which it failed to ratify the suffrage amendment, and then take up the house resolution and ratify it.

DUTCH AGAIN REFUSE DEMAND

Will Not Give Up Kaiser But Promise To Watch Him Closely.

The Hague, March 5.—The Dutch government today for the second time refused to deliver the former German emperor to the allies for trial. In a note addressed to David Lloyd George, the British premier, however, the government promised to take all necessary measures to minimize the danger of the Kaiser and prevent him from endangering the world's peace.

The second communication from the Dutch government, which was delivered in London this morning, states that these precautions will be taken on the spot while Doorn is not mentioned in the text of the note it is understood that in conversations with the allied diplomats here the Dutch authorities have assured them that close guarding and censorship will be instituted when Wilhelm occupies his estate at the place.

WILSON SENDS ANSWER TO PREMIERS' NOTE

Washington, March 5.—The rejoinder of President Wilson to the last note of the French and British premiers, on the Adriatic situation was placed on the cables last night and today was in the hands of American diplomat agents in Europe. The message probably will be decided today and laid before the premier.

The state department declined to make public the contents of the note or intimate the position the President had taken on the proposed conference in recent Anglo-French communication.

NEW PRODUCTION MAN AT AM. MOTOR PLANT

Erwin Phillips, production manager of the American Motor Truck company, has resigned his position and leaves today for Bridgeport, Conn., where he will become prominently identified with the Leslie Safety Razor company. Mr. Phillips has been production manager for the American Motor Truck company since its incorporation over two years ago. He is succeeded here by C. L. Bowler, who arrived from Bridgeport Conn. several weeks ago.

Mr. Bowler came to the American Motor Truck company from the Leslie Safety Razor company of America, having the position of research engineer. Previous to that he had been employed as production manager for the Chevrolet company of Flint, Mich., and the Buick Motor Car company.

IMPROVE FOREIGN EXCHANGE TODAY

Demand Sterling Opened Today Higher Than Thursday's Maximum.

New York, March 5.—Foreign exchange continued to improve today. Demand sterling opened at \$3.60 to \$3.65 as compared with yesterday's maximum of \$3.55.

A canvass of the exchange situation among leading international banking houses today disclosed considerable confusion and difference of opinion respecting the probability of gold imports from England and possibly France. Bankers who have close relations with the British government were not disposed to attach much credence to overnight reports that an extensive gold movement from London to this market is soon to be inaugurated.

It is generally conceded, however, that such action may be necessary to hasten further restoration of British and French credits here. The point is made that the steady increase in British exports to this country is already a big factor in reducing England's foreign obligations.

In responsible quarters it has never been doubted that a large part of the Anglo-French \$500,000,000 loan, maturing next October would be paid and the recent strength of that issue in the local bond market has been regarded as especially significant.

An additional \$5,000,000 in gold coin was withdrawn from the subtreasury here today for shipment to South America. This makes a total of \$21,500,000 withdrawn this week.

CAMBRIDGE WINS IN H. S. TOURNEY

Early Games In Elimination Contest For Southern Division Move Slowly at Delaware.

Delaware, March 5.—In this morning qualifying games in the southern Ohio division of the Ohio Wesleyan elimination basketball tournament, both Athens High and John Hancock High of Athens were eliminated, Athens losing to Cambridge in the closest game of the set by a score of 20 to 19.

Other results: Marysville 22, West Lafayette 10. Tippecanoe City 14, John Hancock 8. Middletown 22, Worthington 10. Portsmouth 23, Lawrenceville 14. Troy 28, Northampton 14. The progress of the games was slow and several teams had not yet completed their morning games at the noon hour.

CORONER FREES MAN WHO ADMITS KILLING

Toledo, March 5.—Whitney T. Alexander, poultry dealer, here and prominent in business circles, who killed Frank Adams Sunday night in a drinking place, was cleared of blame in the coroner's report made today.

Early today Cash walked up to the jail entrance and told the turnkey he was McCune and demanded his freedom. The turnkey looked up the records and released Cash. A short time later McCune appeared before the turnkey. He didn't get out. Sheriff Hutchinson decided to hold him until a search was made for Cash.

URGES \$500 LUMP SUM AS BONUS TO U. S. SOLDIERS

Says Grant Should Be Based On Desire to Help.

DECLARES PEOPLE DON'T WANT GOVERNMENT TO "HAGGLE"

Denies Government Is Not Able Financially to Meet Burden.

Washington, March 5.—Differences between organizations of former service men were aired again today before the house ways and means committee which is considering soldier relief legislation.

Murvin Sperry, national president of the Private Soldiers and Sailors Legion, who appeared to urge a flat payment of \$500 to all former service men and women, charged that J. H. Halper, a member of the legislative committee of the Rank and File Veterans' association was a Socialist and Communist and "had tried to turn over the Private Soldiers and Sailors Legion to the Communist party of New York."

Letters from Soldiers, Sailors and Marines Protective association of New York City, asking the amendment of all soldiers bodies, was read by the witness who said this organization was raided and its literature dumped into the streets.

"What proof have you that Halper is a Socialist?" asked Chairman Fordney. "He admitted it to me before witnesses," Sperry replied.

Washington, March 5.—Payment of a lump sum of \$500 to each former soldier of the United States was urged before the house ways and means committee today by Marvin Gates Sperry, national president of the private soldiers and sailors legion. He opposed proposals of representatives of other soldier organizations for adjusted compensation varying from \$30 to \$50 for every month of service in civil life.

"The \$500 grant," he told the committee, "would not be pay for time, as such a day or a month, but as a helping hand from the government to aid in restoring former service men and women to positions in civil life, which they were called without bargain or contract without money and without price to serve in time of need."

"Haggling over payment by the day or month is contrary to the wishes of the American people," he added, "and only create confusion, delays, favoritism, jealousy and bad feeling. The witness declared that the funding of \$400,000,000 annual interest due on foreign obligations proved that the government was not weak financially and could give financial relief to all former service men."

WILL TAKE SOME TIME TO ADJUST QUESTIONS

Washington, March 5.—Final adjustment of financial and legal questions arising from government control of the railroads will require a considerable time, Director General Hines said today. Only a small number of claims have been received as yet, he said, but when all of those affecting questions of equipment expenditures, maintenance questions and claims from shippers on account of loss and damage are in the total represented probably will run into hundreds of millions of dollars.

More than 1400 officers and employees have been cut off the government payroll as a result of the return of the roads to private control. The central railroad administration here still includes pay 1072 officers and employees, however, and are 151 other employees remaining in the regional offices.

CHIEF OF POLICE CARTER RESIGNS

Had Served for 12 Years—Gives Reason For Resignation As Ill Health.

Columbus, March 5.—Chief of Police Charles E. Carter, after 12 years service, today tendered his resignation to Safety Director McCune. He gave as his reason for resigning, declining health as acting chief.

FRENCH SAY ONLY 5000 ARE KILLED

Paris, March 5.—The number of Armenians who are victims in the massacre in the Marash region of Asiatic Turkey last month does not exceed 5,000, according to detailed information received by French officials.

Reports from London yesterday stated the number would be between 1,000 and 2,000. French officials admit the gravity of the incident but point out it was impossible to foresee and prevent the massacre as the army of occupation is not large enough to furnish strong guards at every point.

GLENN PLUMB SPEARS. Ashland, March 5.—Glenn B. Plumb, father of the Plumb plan railway operation will speak here this evening under the auspices of the Ashland local of the Plumb plan league.

Big Red Team to Cop
State Title.

(Special to the Advocate.)
Granville, March 5.—Interest again
centers in the Big Red chances in the
conference, with four more games yet
to be played. Some fine figuring has
been done by "Dop" in the college
paper, which may be enjoyed by fans
generally. He says:
Akron plays 14 conference games.
She has lost two of them and should
win her remaining three she would
finish .857. Wittenberg has 15 confer-
ence games. Denison stands a good
chance of beating Wittenberg if the
Lutherans win every other game.
At the same time Wittenberg de-
feated Wesleyan by one point. Score

DR. SPARKS GETS COUPE AS GIFT

Congregation of First M. E.
Church Gives Retiring
Pastor Ford at Farewell
Reception.

Speeding the parting guest was
one of the features of the farewell
reception tendered Dr. and Mrs. L. C.
Sparks, Thursday evening when Frank
L. Beggs in a presentation talk "Going
Made Easy" gave the honor guests a
Ford coupe as a gift from the congre-
gation.

The auditorium of the First M. E.
church was filled with friends and
retiring pastor and his family and the
program given, was arranged by Frank
L. Beggs, H. F. Moninger presided.
Dr. Sparks, who has been pastor for
the past 18 years, assumed his duties
as superintendent of the Lancaster dis-
trict last Sunday. The family will live
in Columbus, but as Dr. Sparks said
last night, "I have often felt in sym-
pathy with the poem that I would like
to live beside the sea and be a friend
of man and it seems that is what I
will have to do," for houses are not ob-
tainable in Columbus.

A splendid musical program was
given, the choir singing "Unfold ye
Portals" and Robert Northey gave the
opening prayer. Dr. C. H. Stull's talk
was "Christian Felicitations," while J.
Henry Miller's subject was "Impress
Upon the Civil Life of the Community."
B. F. McDonald gave an interesting
talk on the "Impressions of a Layman."

The male quartette gave several num-
bers and the heads of the various
church departments gave short talks.
Frank Toothaker represented the Sun-
day school, Gerald Strohl, the Epworth
League, Mrs. F. M. B. Windle the
Home and Foreign Missions, Mrs. M.
S. King the Women's guild.
Mrs. T. O. Johnson was assigned the
subject "The Pastor's Wife," and the
members of the Sunday school sang
songs. Mrs. Sparks presented them with two
mahogany chairs. Dr. Sparks gave a
clever, appealing response to the
thoughts brought forth in the differ-
ent talks and prayers. G. B. Schmitt gave
the benediction.

"Tragic Century"

The sixteenth century is called the
"Tragic Century" on account of the
great number of deaths occurring in
it. The whole world was swept by
plagues throughout the hundred years.
Festilence nearly depopulated China,
and raged throughout Germany, Hol-
land, Italy, Spain, England, France
and Russia. The "sweating sickness,"
which broke out in England in 1551,
caused the death of nearly one-half
the population of the large cities of
that country. The century was also
noted for its many wars.

church departments gave short talks.
Frank Toothaker represented the Sun-
day school, Gerald Strohl, the Epworth
League, Mrs. F. M. B. Windle the
Home and Foreign Missions, Mrs. M.
S. King the Women's guild.
Mrs. T. O. Johnson was assigned the
subject "The Pastor's Wife," and the
members of the Sunday school sang
songs. Mrs. Sparks presented them with two
mahogany chairs. Dr. Sparks gave a
clever, appealing response to the
thoughts brought forth in the differ-
ent talks and prayers. G. B. Schmitt gave
the benediction.

RUTS IN STREET FORM BASIS FOR LITIGATION

Prosecuting Attorney Chas. L. Flory
has filed two actions in municipal court
against the city for \$50 each, alleging
that amount in damages is due him for
injury to his automobile in West Church
street, caused by the bad paving.
The suit of ex-health officer, Dr. W.
H. Knauss, against the city for salary
due him will be heard by Judge F. A.
Bolton in municipal court next Monday.
The cases of Sanitary Officer Baldwin
and Food Inspector Mitchell for back
salary has been settled.

BOWSER BEATS KILONIS; WINS LAST TWO FALLS

Paul Bowser won over John Kilonis
in their wrestling match at the Au-
ditorium theater last evening before the
largest crowd of the season, nearly
every seat being occupied. Kilonis won
the first fall in 25 minutes and Bowser
won the second in one hour and ten
minutes with a cradle which put the
Greek out for five minutes and Bowser
easily won the third fall in seven
minutes.

"Tragic Century"

The sixteenth century is called the
"Tragic Century" on account of the
great number of deaths occurring in
it. The whole world was swept by
plagues throughout the hundred years.
Festilence nearly depopulated China,
and raged throughout Germany, Hol-
land, Italy, Spain, England, France
and Russia. The "sweating sickness,"
which broke out in England in 1551,
caused the death of nearly one-half
the population of the large cities of
that country. The century was also
noted for its many wars.

Japanese Nurses Carry Children On Backs While Playing Games

She is one of the thousands of sixteen years of age play base-ball
baby nurses in Japan. Wherever she
goes she carries her little brother on
her back—on errands, while playing
tag or any other games in the streets
and on the temple grounds.
She is very proud of the fact that
when she was just five years old she
was considered a responsible enough

have him strapped on her back when
she ran out to play.
Everywhere in Japan, children,
both boys and girls, play while carry-
ing their younger brothers and sisters
about in this fashion. Boys as old as

The Dead-Line of Sedition

"It ought to be a simple matter," an Indiana editor remarks, "to mark and brand the
real seditionist." But it is not a simple matter apparently for Congressmen to devise a
measure which will satisfy at once those who fear that our institutions will be overthrown
by seditious propaganda, and those afraid they will be undermined by interference with
civil liberties. In order to help Congress find out what kind of legislation the people really
want, if any, we have asked a large number of newspaper editors to set down the pro-
visions they think a sedition act ought to contain.

THE LITERARY DIGEST for March 6th presents these opinions, and taken as a
whole, gives a constructive basis upon which to build. While the Dayton News believes
that "public meetings where the Government of the United States is attacked and insulted
should be stopt everywhere and those who persist in traitorous activities should be jailed,
fined, or deported, as the case deserves," the Kansas City Star declares that "additional
legislation is more dangerous than soap-box oratory or foolish publications." Running
between these two extreme view-points, the article in THE LITERARY DIGEST reflects a
wide field of public opinion.

"OH, LET'S DON'T"

People With Thin, Pale Blood Are Listless and Want to do Little

MORE RED BLOOD CELLS NEEDED

Take Pepto-Mangan, Famous Tonic, and say "Let's Go," instead of "Let's Don't"

When normally healthy, ambitious people begin to lack energy and tire easily—when they are quickly discouraged and low in "vitality," it usually means their blood has grown weak.

Such people are called anemic, or "run-down." Build up the blood and you build up the health and spirits. Pepto-Mangan is a pleasant-tasting red blood builder and it contains exactly the elements which poor, pale blood needs to become rich, red blood.

Red blood means rosy cheeks, bright eyes, a clear brain, a firm step. Pepto-Mangan has placed thousands of people who needed building up in the full-blooded, energetic, vigorous class. It changes the "let's don't" attitude to a "let's go" attitude. Recommended by physicians for thirty years and sold all over the world.

Pepto-Mangan is sold in both liquid and tablet form. Both contain the same medicinal ingredients.

Buy Pepto-Mangan at your druggist's. Be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan.—Advertisement

YOUR FRECKLES

Need Attention in March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish to look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use Othine—double strength.

This preparation for the removal of freckles was written by a prominent physician and is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of Othine—double strength, and even a few applications should show a wonderful improvement. Some of the smaller freckles even vanishing entirely.

Warlock. Warlock is an archaic word, that is, it belongs to or has the characteristic of a former period, and is no longer in common use. It means a male witch, a wizard, a sorcerer. It is derived from two ancient Saxon words, *weald*, a compact, and *leagan*, a lie, that is a compact with falsehood, with evil. Although an archaic word, it is used by the famous novelist, Robert Louis Stevenson, and will be found, for instance, in the short story, "The Isle of Voices," which forms part of the *Island Nights-Entertainments*. In the fantastic story of "The Isle of Voices," the old sorcerer is called a warlock, a word that although out of common use, seems to suit the makeup of the character of the story.

Crack Drive Off the Tee.

Golfers have their differences like other sportsmen. Up to the present the question as to the distance of a crack drive, off the tee, for example, remains unsettled. By dint of careful measurement, it is asserted that 200 yards is a very good drive, and that it is only the crack players who can cover the 250. Two hundred and fifty yards is, however, a very long distance, and just about twice as far as even the dearest of us can throw a cricket ball. One hundred and forty yards is the record distance for throwing a cricket ball. A competitor in the Olympic sports has thrown a javelin just over 211 feet. With a sling a stone has been thrown more than 300 yards.

Plants Sweeter Than Sugar.

Several ounces of dried leaves and a small quantity of seed of a wild plant that is about 180 times as sweet as sugar reached Washington, from Paraguay. It is called *kaa lee*, and its botanical name is *stevia rebaudiana*. Another strange plant is the agayuan (*synsolum dulciferum*) of southern Nigeria, the fruits of which are only slightly sweet, but have the peculiar property of making the strongest substances, such as limes, lemons, urtic fruits, or vinegar, eaten within 12 hours or so afterward, seem intensely sweet.

MEXICO NEEDS SMALL COINS

Money Changers Make Profits Because Mints Cannot Meet the Demand.

MUST MAKE YOUR OWN CHANGE

Almost impossible to Buy Merchandise in Small Quantities Unless You Have Exact Change—Taxicab System Is Well Regulated.

San Antonio, Tex.—Money, taxicabs, flowers, fruits, dirt and trade embargoes—these are certain to attract the attention of travelers from the United States in Mexico.

Mexico is now on a wholly metallic basis, so far as money is concerned. This condition has been forced through a long series of worthless issues of paper money by various revolutionary factions prior to the inauguration of Carranza as president.

There is an abundance of native gold and silver out of which to coin money. All coins above 10-centavo pieces are of silver or gold. Liability of mints to meet the demand has created a shortage of change. This shortage has been taken advantage of by money changers all over the republic.

Profit for Money Changers.

It is almost impossible to buy merchandise in large or small quantities unless you are able to make your own change. From 2 to 5 per cent is commonly charged by money changers for converting 10 or 20 peso pieces into silver of small denominations.

This shortage was made more acute about two years ago through the withdrawal from circulation of the old Mexican silver peso. This was caused by the advance in the price of silver, which made the peso worth approximately 50 per cent more than its face value as bullion. The new Mexican silver coins do not contain as high a percentage of silver as these old peso pieces.

It is hard to conceive of a cigar store refusing to sell one cigar because one has not the exact change, but that is the case all over Mexico. One also encounters difficulty in buying food while traveling, for the reason that food merchants at the stations are unable to make change readily. Often a meat may cost \$2 because of this scarcity of change.

We in the states might learn something from the well-regulated taxicab system of Mexico City. I arrived in the capital at 3 a. m. My baggage was carried to a taxicab by a licensed and numbered cargador. These cargadores insist upon showing travelers their numbers, in compliance with the law, and it is wise for any stranger traveling in Mexico to note the number carefully. Most of the cargadores, however, can be relied upon to handle your baggage with care and perfect safety.

Once your baggage is deposited in a taxicab, a policeman is on hand to note the chauffeur's license, the number of passengers and destination. The policeman gives the passenger a slip with these facts recorded, which should be retained in case the service is found to be faulty.

Taxicab rates are plainly posted in the cars.

Fruits and Flowers Plentiful.

Along the route to Mexico City I found the towns dirty, but the flower and fruit stands sumptuously stocked. Prices for fruit and flowers are so ridiculously low in comparison with prices in the states that one is tempted to buy a bouquet of roses as big as a bushel basket for 50 cents American money.

I found considerable dissatisfaction throughout Mexico with the embargo against Mexican citrus fruit. Large quantities of oranges, limes and lemons are raised in Mexico. The quality of this fruit is excellent. The excuse for the embargo is that the germ of a blight that is fatal to citrus fruits might be brought into the United States if markets were opened to the Mexicans. I am told, however, on reliable authority, that this danger is more imaginary than real. I found strong sentiment everywhere for the lifting of the embargo and a similar embargo against cotton.

IN ALMSHOUSE 76 YEARS

Woman, 85, Public Charge in Delaware Since She Was 9 Years Old.

Georgetown, Del.—An inmate of the Sussex county alms house for seventy-six years, Martha Stanford, who was blind from childhood, has died at the age of 85 years. She was sent to the alms house from the western part of the county when nine years old, and lived there ever since until the time of her death.

Despite her affliction and her poor condition, she kept cheerful, always hoping that some time she would be taken from the alms house. She had no near relatives.

WAR VETERAN GIVES MESSAGE OF GOOD CHEER

Broken in health during the rebellion he at last finds relief in Trutona.

Marletta, O., March 4—"I can truthfully say that Trutona is the best medicine I have ever taken in my life, and I'm positive I will live many years longer now, because of the benefits this true tonic has given me. I simply feel like a new man, in fact a whole lot younger." Such was the enthusiastic narrative given by Trutona a few days ago by S. H. Neese, 78 years old, and well known Marletta real estate agent, who lives at 814 Front Street.

"I am a veteran of the civil war," Mr. Neese says, "and it was while in the service that I began to have trouble with my liver and kidneys. I've suffered more or less from this malady ever since, with terrible pains in my back and sides. I also had severe aches in my forehead and the back of my neck. What little food I was able to eat on account of a very poor appetite would not digest properly, and which caused nasty spells of dizziness. I was usually constipated and was compelled to take a laxative most all of the time. Now I want to say to you, sir, that taking Trutona, I'm convinced that I will live past the four-score and ten year mark, and I want the world to know what this wonderful medicine has done for me. All of the pains in my body have left me, and I can see much clearer than before. My kidneys don't give me the trouble they did before I began taking Trutona, and I simply can't get enough to eat at meal times. My constipation has left me, and I sleep like an infant. Yes, sir, Trutona has made a different man out of me and I can truthfully say that it is the best medicine I have ever taken in my whole life. I want the people of not only Marletta, but everywhere to know the good Trutona has done for a veteran like myself."

Trutona is now being introduced and explained in Newark at W. A. Erman's.

HOLLAND SENDS NOTE ON KAISER

Netherlands Said to Be Ready to Promise to Guard Wilhelm For Remainder of Life.

The Hague, March 4.—Holland's answer to the second allied note relative to the extradition or internment of former Emperor William of Germany probably will be handed Premier Lloyd George by the Dutch minister in London, this week. Intimations have been given that the Netherlands government will express its willingness to guard the captive monarch and prevent anything that might threaten the peace of Europe.

Night and day shifts are working on the Kaiser's new residence at Doorn and it is reported he will move there from Amstongen on May 12. A high fence about the house at Doorn is now near completion, the authorities having waived opposition to the work. While unprotected by high walls or a moat, the Doorn estate is now in reality a 200 acre cage that can be easily guarded and within which the Dutch government expects William of Hohenzollern to spend the rest of his days.

MRS. GOULD SIGNS CONTRACT FOR MOVIES

London, March 5.—Mrs. Frank J. Gould, whose marriage was recently dissolved by the courts of Paris, has signed a contract to become a film star with a new British moving picture combination according to this morning's newspaper. She will receive a salary which is considered phenomenal for Great Britain, it is said.

12 MILLIONS STOLEN FROM BROKERAGE FIRMS

New York, March 5.—Approximately \$12,000,000 worth of securities, including Liberty bonds, were stolen from 600 brokerage houses in New York and other cities last year, according to figures made public by the district attorney's office today. Most of the thefts are believed to have been the work of organized bands of criminals who had perfected plans for the disposal of the securities in various cities.

London, March 5.—Although the composition of the commission which will go to Russia in the near future to study conditions will be finally decided by the council of the League of Nations, it is known that Spain, Belgium, England, France, Italy and Japan will be represented. As far as can be ascertained here no answer has been received to the invitation to the United States to send delegates.

"THE CUP OF SALVATION." The bad rainy weather could not keep the people away from the revival at the East Main Street United Brethren church, last night. And one of the best services so far, was enjoyed by all present. Dr. Herbert of the Tenth street church, offered prayer. Which was followed by a most wonderful praise service. Many were the praises to God for victories during the revival. Evangelist Oliver E. Williams used the 116th Psalm as an outline for his message. He set forth the way of salvation, in a clear convincing way. "A good dose of conviction," said the evangelist, "will cause one to call upon God for deliverance." The singer needs deliverance from three things: First, sin-love. Half of the church members have never been saved from the love of sin. Second, sin's power, the power of sin in every form must be broken. Third from sin's penalty, which is death. This is all to be found in Jesus. David says: "Thou hast delivered my soul from death."

"There are too many ladies in the church," said Williams. "Still cheering, having never learned to walk. The preacher has to carry a nursing bottle to keep them from crying like all creation." David said: "I will walk before the Lord, in the land of the living." "That is, I'll be a man of God's name and walk, not creep like an infant. This is the need of the day." "Will you, like David, take the cup of salvation?" You will if you get sick of sin. Souls came home at the aftermeeting, and victory was in the air.

Dr. Williams will speak on "Newark's Most Burning Sin," tonight. Newark's consecration service Saturday night, the subject will be "The Family Sacrifice." Three great services Sunday.

JAPS ABANDON SIBERIA. Honolulu, March 4.—The Japanese government had decided to abandon the Siberian expedition in line with the American policy, according to a messenger from Tokyo received today by Shimpu, a Japanese language newspaper here.

Hot, Hot, That Tides Loved. Hot-blooded people are generally supposed to be hot tempered. They are inclined to be hot, but are never vindictive. This quickness of temper is due to impulsiveness and a love of speaking out what they have in mind. They are usually of a sunny disposition and are honest and truthful, but rather vain and eager for admiration.

AMUSEMENTS

AUDITORIUM.

"Experience" Tonight.
F. Ray Comstock and Morris Gest offer at the Auditorium this evening what is said to be the most wonderful play in America. "Experience" by George V. Hobart.

Love, passion, anger, fear, hate and remorse are emotions felt by every human being. Pleasure, wealth, luxury and fame are desired by all of us, and at times we all yield to temptation in one form or another. These are fundamental qualities and weaknesses which, however they may vary with the individual, constitute the foundation and framework of all human character.

In a beautifully written and uniformly well acted play, "Experience," we are shown the experience of a youth from the time when he leaves home and Love to follow his friend Ambition in search of Wealth and Fame, until he returns, beaten but not a failure with his new friend Experience. And as we follow Youth we know that we are looking upon ourselves, for while we may not have had all of his experiences or made all of his mistakes, we have all had most of his experiences and made most of his mistakes, and have known or know of others who have had and made the rest. For "Human nature is a looking glass that reflects over and over again the same pictures."

That is why Experience grips us and

"white lie" must never be resorted to, even to prevent heartache and despair, are advised to see "The Forged Bride," to be shown at the Alhambra theater with Mary McLaren playing the stellar role.

"The Forged Bride" is a Universal production directed by Douglas Gerrard. Among the players are Barney Sherry, Thomas Jefferson, Harold Miller, Bogmar Godowsky and Dorothy Hagan.

Based on a powerful story by J. G. Hawks, the picture is gripping from start to finish. Miss McLaren has the role of Peggy Reynolds, the charming daughter of a skillful forger. When she leaves her father's calling she urges him to go straight.

The lure of the game is too strong and he is apprehended while passing a bogus check.

A Charming Photoplay.

Revealing a story of intense dramatic interest, "A Daughter of the Old South," the newest Paramount picture starring beautiful Pauline Frederick, which is to be shown at the Alhambra theater next week, is in every respect a charming photoplay. The story was written by Alicia Ramsey and Radolph De Cordova and it was adapted for the screen by Margaret Turnbull. The director was Emil Chautard, one of the most famous directors in the silent drama.

PAULINE FREDERICK in "The Paliser Case"
GOLDWIN PICTURES

holds us as few plays ever have or ever will. That is why it is that when we laugh, which is often our laughter is genuine; and it is why we so frequently see the stage dimly, as through a mist.

Seats are selling and from indications, capacity will rule at the Auditorium this evening.

"Good Bye, Bill"

A special picture attraction has been arranged at the Auditorium tomorrow in John Emerson and Anita Lees great photoplay, "Good Bye Bill," in which Shirley Mason and Ernest Truex are the stars. This is a Paramount and in the cast besides the stars are Joseph Allen, Carl de Plants, Joseph Burke, H. E. Koser, Herbert Frank and others. The story is most interesting and Miss Mason had a part that is full of pep from start to finish and Mr. Truex as Teddy Swift, a kid from West Hoboken, N. J., will make you laugh, no matter what kind of a grouchy you have. Pathe News this week is also an added feature for it contains events taken from all parts of the world.

"Pollyanna"

Picking a cast for a picture like "Pollyanna," which is a dramatization of a best-seller, is one of the hardest tasks that confront the motion picture producers, according to Mary Pickford, who will present "Pollyanna" as her first independently produced production of United Artists Corporation, at the Auditorium theater on Sunday.

"Casting an ordinary picture properly is difficult enough," said Miss Pickford the other day, "but when it comes to selecting players for the dramatization of a story which is known to hundreds of thousands, you are up against a mighty troublesome proposition, one that will give you a sleepless night, if you are of the worrying kind."

"For each of the characters in this production, I went through long lists of players who had been successful on the screen, to find the exact type for each one in the book. I wanted them to walk out of the pages of the book, onto the screen, so that everyone would be justly satisfied, not only with 'Pollyanna,' but with every scene. Aunt Polly, Dr. Chilton, John Pendleton Esq., and Nancy.

"Not only were the characters chosen with extraordinary care, but every detail of the production was followed out precisely in the same manner, for my whole organization realized that not a single error dare be made, when we realized that millions of people have read this wonderful story of the 'Glad Girl'."

Kitty Gordon.

Mr. George Fenberg of the Auditorium received the following wire late last evening:

"Louisville, Ky., March 4, 1929.

"George Fenberg, Mgr. Auditorium, Newark, Ohio.

"Dear George—I have arranged through K. and L. to give you Kitty Gordon in 'Lady Kitty,' Inc., the biggest musical success of her entire career. The date is March 15th and now George, it's up to you to show me your old time friend by giving her capacity business. Last week at Cincinnati, capacity entire week and this week here it's the same." Signed, Ray Owen, Mgr. Kitty Gordon Co.

ALHAMBRA.

"The Paliser Case."

A novel like "The Paliser Case" remain unrecalled for any length of time. And as soon as it was published, the Golden company secured in an exclusive the screen rights to this dramatic and powerful melodrama. It is now showing at the Alhambra theater, with Pauline Frederick in the role of the orphaned girl, who later is adopted by a rich man, to secure medical and physical comfort for her in a grand father.

"The Paliser Case" is frankly a melodrama. The action of the thoughts and emotions by which they steer their way through life are brought to the screen in all their pathos, their cruelty or in their generosity. Great battles with evil and in temporarily defeated, but as so often occurs in real life, eventual triumphs. The engagement runs over Saturday.

"The Forged Bride."

Persons who argue that a man or woman is either all good or all bad, that decent can never, under any circumstances, result in good, and that a

GEM.

Manager Gallagher of the Gem theater gives notice of the coming of an attraction which will arouse instant interest. Miss Shirley Mason is now a full-fledged star in the William Fox galaxy, and will make her debut here in "The Elongated Man," a dramatization of Pearl Deles Bell's famous circus story. No screen personality is more winning than that of dainty Shirley Mason, and her appearance as a horseback rider, in all the atmosphere and the irresistible charm of the story, promises keen enjoyment. Mrs. Bell spent a considerable part of a season with the big show getting atmosphere for her fascinating love story.

GRAND.

Dorothy Gish and Owen Moore will make their final appearance this evening at the Grand in "Betty of Greystone," a story that aroused the deepest interest in the minds of the many people who witnessed it yesterday. There was never a more human story written than this. In addition to this feature there is shown another of

CINCINNATI REDS BOARD TRAIN FOR SOUTH

Cincinnati, March 5.—Manager Pat Moran, with a squad of players of the champion Cincinnati National League baseball club boarded a train here this morning for Miami, Florida, where spring training will begin Monday. Included in the party were Catchers Har- den and Allen; Pitchers Salice and Walters, the latter being a recruit from Buffalo; Infielders Myers and Rapp and Outfielders Neale and Duncan. Myers is a young first baseman who asked Manager Moran to be allowed to go south with the Reds for a try out.

The squad will be joined at Atlanta by Ivy Wingo and Rube Bressler. All the other players will join the team at camp early next week, going there directly from their homes.

Refusal of Infielder Heinie Groh, yesterday to attach his signature to a \$10,000 contract resulted in his being left behind. Groh insisted upon receiving \$11,000 and declared he would not play ball this year unless his terms were met, while officials of the club asserted firmly they would not yield an inch.

Outfielder Eddie Roush who has not appeared at headquarters here to sign a contract, is expected to report at Miami within a few days.

ALIEN SUES TO GET STOCKS FROM GOVT.

Cincinnati, March 5.—Recovery of stocks and bonds in the hands of the alien property custodian is sought in a suit entered in United States district court here against Francis P. Garvey, Washington, as alien enemy property custodian, and John Burke, treasurer of the United States, by Dr. Alfred Springer of Cincinnati.

In his bill of complaint, Springer says his daughter and her husband, Christian Meyer, a German subject, went to Germany in 1914, to visit relatives, leaving two of their children in his care. The arrangement, he said, was that he should be reimbursed for the care and maintenance of the children the total expenditure being \$10,206.

The attorney general refused to allow the claim on the ground that the relationship of the parties raised a question as to the claim being a bona fide debt. Court is asked to allow the claim and direct the custodian and treasurer to deliver the property to Dr. Springer. The Meyers are now in Germany.

BUY STOLEN GOODS GET HEAVY SENTENCES

Canton, March 5.—Meyer and Ben Block, brothers, charged with contributing to the delinquency of three small boys, were found guilty by Probate Judge Charles Krichbaum and fined \$500 and costs each and sentenced to serve six months in the workhouse. The court later suspended the workhouse part of the sentence and placed the defendants on probation.

The two men were found guilty of buying stolen goods from the three boys for trifling sums. It was also brought out at the hearing that the defendants suggested to the boys the articles they wanted stolen. The stolen goods included wearing apparel, a camera and cigarettes.

PROBE PALMER'S BOOST OF PRICE ON SUGAR

Washington, March 5.—Charging that President Wilson and Attorney General Palmer were directly responsible for prevailing high sugar prices, the Republicans by a strict party vote have put through the house a resolution authorizing investigation by the judiciary committee of the acts of Attorney General Palmer in connection with prices fixed for Louisiana sugar.

Democrats charged the Republicans with an attempt to curb the "growing popularity" of a Democratic presidential aspirant. The Republicans replied that Mr. Palmer had no authority to recognize the high figures for which Louisiana sugar sold and that he had failed to press action against profiteers.

FORBIDS MARRIAGE OF FED. BANK EMPLOYEES

Chicago, March 5.—A book of rules for employees of the Federal Reserve Bank of Chicago circulated today, says "no male employ receiving less than \$125 a month salary will be permitted to marry while in the service of this bank without first taking the matter up with the chief clerk."

"The sum set in the book is the minimum on which an employee can risk a matrimonial venture," said C. R. McKay, vice governor of the bank, who added that the rule was "imperative."

"The bank officials believe that is the least sum on which two may live in these days," he said.

PORTUGUESE LEGATION DISCREDITS RUMORS

London, March 5.—Rumors of a revolution in Portugal with the establishment of a Soviet government there, not credited by the Portuguese legation here. It is pointed out that such reports generally come from the Spanish frontier and are not obviously trustworthy. Reports from Lisbon were received today, dated last night, and no mention of trouble was made.

'INSISTING ON SAFETY' THE SAFE THING TO DO

The only certain (and generally the quickest) way for the small investor to grow, is by insisting on safety, and resisting the lure of big profits.

IT IS THE SAFE investor that seeks an analization of the company, the product, the output, the earnings, the management and the brokers.

An investigation of the NEWARK STAMPING AND FOUNDRY CO., will reveal the following facts:

The company: Established and growing before the eyes of the Newark public.

The Product: The Ath-a-nor furnace and hose clamp. National market.

The Output: Growing daily, yet unable to satisfy demand.

The Earnings: Large enough to make sufficient profits.

Dividends: Never missed paying a dividend.

Management: Increasing output under the present management. The growth of this company in the past years has been remarkable. New buildings are to be added.

Brokers: TEN YEARS WITHOUT LOSS TO A SINGLE INVESTOR.

New York, March 5.—Reform of mov-
ing pictures is planned by the Presby-
terian board of temperance and moral
welfare, which announced today that
a "white list" of approved pictures
would be issued from time to time in an
effort to condemn pictures characterized
as a menace to child welfare, and a
cause of juvenile delinquency.

DISORDERS GROWING
SERIOUS IN PORTUGAL

Madrid, March 5.—Travelers from
Portugal report firing at Lisbon, Oporto
and Viana, according to announcement
today by the ministry of the interior
here. Reports from the frontier state
bombs were thrown and shots were fired
at a military train near Viana do Cas-
tello, 41 miles north of Oporto.

HEN HAVING THREE LEGS.
LAYS TWO EGGS DAILY

St. Louis, March 5.—A Plymouth
Rock hen with three perfectly formed
legs and which lays two eggs each day
owned by Mrs. Frank Rhedanz of St.
Louis. Skeptical neighbors became
convinced when a test was made by
isolating the hen yesterday. Last night
two eggs were found in the nest.

EAST LIVERPOOL PAPERS
LIMIT SIZE OF ADS

East Liverpool, O., March 5.—Because
of an acute shortage of news print na-
per East Liverpool's two newspapers
have placed a limit on the size of ad-
vertisements in order to keep each pub-
lication in the least number of pages.
Drastic economic measures were neces-
sary in order to prevent interruption in
the daily issues.

Austrian and Bulgarian peace treaties
after first reading.

Tales of Ancient History.

Tatian in his "Book Against the
Greeks" relates that among the Phoe-
nicians flourished three ancient his-
torians, Theodotus, Hysicetes and
Mochus, who all of them delivered in
their histories an account of the
league and friendship between Solo-
mon and Hiram when Hiram gave his
daughter to Solomon and furnished
him with timber for the building of
the temple. The same is affirmed by
Menander of Pergamum. This Hiram,
of course, was the king of Tyre.—

Doge Foxes Soles Than Foxes.

The fact that foxes make cleverer
spies than dogs was discovered cen-
turies ago by the Japanese. For gen-
erations they trained foxes to help
them in their evil war. Their clever-
ness is best shown when the fox is
working with his master when the lat-
ter is spying. This is the kind of
thing those trained foxes will do.
When a spy, for example, comes to a
cliff he cannot climb. He puts the end
of a rope in the mouth of the fox and
the animal hangs its way up the cliff
where the human being could get un-
aided. When it reaches the top it goes
to the nearest tree and walks round
and round it with the rope in its
mouth and holds it, to prevent it slip-
ping, while his master climbs up. These
Japanese foxes have a much keener
sense of smell and hearing than any
men, and for this reason Japanese sen-
tries often have one of their side to
give them warning of the stealthy ap-
proach of anyone.

Misplaced Ambitions.

The daily routine of the federal
board for vocational education is full
of amusing incidents. One big negro
who had been a laborer before the
war said to its representative: "I
come to see bout dis vacation edu-
cation. I needs a vacation mighty
bad after nat. long service in France."
When, however, he learned that the
"vacation" must be spent in school,
he changed his mind. Another who
wanted to do "somefin out of the ordi-
nary" had decided to be a "tempera-
ture." "I needs some," he said, "an I
understand it don't take much writin'
or spellin' neshow for to become a
steno-grapher." He was persuaded to study
motor mechanics instead.—Youth's
Companion.

Two Frocks of Blue Gabardine, One Embroidered With Castor Silk, Afford-
ing an Idea of Pleasing Construction.

ONE-PIECE GOWN STILL IN FAVOR

Desirable Garment Rounds Cycle
of the Year in Endless Pro-
cession of Models.

STRAW EMBROIDERY ON SERGE

Decoration Not as Bizarre as It
Sounds—Rat Tail Bindings Con-
servative—Vestee of Checked
Gingham.

Perhaps there is no type of dress which has ever given more comfort and general satisfaction to women of all degrees than the one-piece dress. This, observes a prominent correspondent, is undoubtedly a truism and yet it cannot be dwelt upon too often by its beneficiaries for fear that if they do not recognize their blessings on some evil day the useful little one-piece frock may be snatched away from them.

Fashion is proverbially a fickle dame, but after centuries of high handed and capricious proceedings with her votaries it was a merciful dispensation on her part to decree the reign of the one-piece frock at a time in the affairs of women when life moved for them in a swift and almost overwhelming flood of public and private activities.

It was, and is, a time in which a type of dress was needed which reduced nerve strain to the minimum and which combined ease of adjustment, comfort, smart and youthful appearance, all around wearableness and sufficient variety. If such a thing were possible in an uneasy and imperfect world, one would be inclined to say that the one-piece frock would go on forever, no matter what other styles might come and go.

Predictions are unsafe and one only knows that at present this desirable type of garment rounds the cycle of the year in an endless procession of models developed in fabric suitable for the season, bridging the chasm from chiffon to velvet.

Just now the only sort of one-piece frocks to which any woman's mind will give house room are the mid-season and early spring models of gabardine, tricotette, satin, crepe de chine and taffeta, of which there is an interesting variety in the advanced showings.

Ever Faithful Type Remains.

The ever faithful and desirable frock of navy blue serge, point twill, tricotette or gabardine is, as a rule, as straight and simple of silhouette as it has been for several seasons past, either on the rather attenuated lines of the French coat dress or with the youthful blousing bodice and narrow gathered skirt with a moderately wide waistband. There are striking chemise models in peasant style which slip on over the head and have but little fastening.

At the same time there is observed a bold and rather interesting effort

to introduce broken and widened lines in the skirt by means of plaited frills, tucks of irregular shape, folds and flounces. Such models stand out conspicuously among so many which have a willowy, unbroken slimmness as their chief characteristic.

Simple and practically unadorned blue serge frocks appear to be in just as good standing as blue serge frocks which are elaborately embroidered or trimmed with outstanding and crisply plaited frills. However, trimmings of various kinds are rather prominently in evidence in any inventory of the charms of the 1929 blue serge frock.

Embroidery on Two Wide Bands.

In one especially striking and handsome frock of navy blue gabardine the embroidery in ecru silk is entirely concentrated on two wide, loose bands of the fabric which extend from the narrow girdle straight downward at each side until they are fastened up under the edge of the slim skirt. The straight bodice with long sleeves is cut in a deep square at the neck and filled in with a gathered tucker of cream batiste. At the back on either side, where the embroidered bands meet the girdle, there are long and stately tassels of ecru silk.

An interesting decoration from the peasant source is in the form of oblong perforations of good size outlined with green silk. Lines of these perforations set on end run up and down on the blouse and round about the skirt. There are also narrow bands of embroidery which outline the simulated ecru coats of certain frocks, and lines of wool chain stitch embroidery in rose wool break the monotonous length of a blue serge chemise frock. Besides these there are frocks embroidered in navy blue silk, with only an accent of color.

Straw embroidery on blue serge is not half as bizarre as it sounds. However, it is scarcely likely to interest the woman who takes her clothes seriously. Rat tail braid bindings of black or striped silk and upstanding plaitings of satin cre ribbon are conservative and smart trimmings, as are black moire ribbons.

Frills to Edge Apron Draperies.

Fine plaitings of blue serge are used as frills to edge apron draperies, as tunic draperies and as the better part of a frock. One model has a flat back and front panel, but the sides of the dress from under the arms fall in straight, narrow plaits to the skirt hem, confined at the waist by a belt of braided cords and is sure to have a little vestee and collar of batiste or handkerchief linen or organdie, usually showing through a narrow slit in the frock.

The woman who is horrified at the thought of a blue serge frock with short sleeves should take heart if she has either a long pocketbook or pretty elbows. In the first case she will be able to afford long gloves, and in the second she will soon be pleased with her exceptional possession as Katharine has with that famous shoulder blade of hers, and, after all, a wool frock with short sleeves is many degrees more comfortable in mild weather than one with long sleeves.

There is, however, a choice of sleeves, for one may have them shortened in a most abrupt fashion or they may run to the wrist or extend just below the elbow.

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store. (This is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Northwest Mounted Police Loses
Identity as Civilization
Lessons Its Need.

BODY HAS STIRRING HISTORY

Ranged Far Into Arctic Wastes to Punish
Crimes, Maintain Order and Ex-
tend Relief—Won the Confi-
dence of the Indian.

Ottawa.—That famous corps, the
Royal Northwest Mounted Police, has
ceased to exist. It is now merged
with the Canadian mounted police.

For half a century "the scarlet and
gold" of the riders of the plains had
been the symbol of law and order in
a territory as vast as the United States
west of the Mississippi. From Hud-
son bay to the Rockies, from the inter-
national boundary to and beyond the
arctic circle they carried security to
the law-abiding and terror to the law-
breaking. On the vast prairies, in
mountains and forest, through the ice-
bound reaches of the arctic coast they
made "the long patrol," protecting the
settler, succoring the weak and ad-
ministering justice with a relentless
hand to white and red, to British and
alien.

The march of civilization has
brought into this vast territory pros-
perous settlers, where the Royal North-
west Mounted Police found the Indian
of the sun dance and scalp knife, the
excitable Metis (the French half-breed
of the plains), and the outlaw who
sought this "no man's land" to escape
justice and continue in crime. The In-
dian and Metis are now peaceful farm-
ers, the ranch has been replaced by
the farm, and railways now cover the
country as thick as the Indian trails
of the seventies. Only in the far north
is any of the original work of the po-
lice left. Here in the Great Barrens,
along the desolate shores of Hudson
bay and the Arctic ocean, through the
Rockies to Dawson will "the scarlet
and gold" do the long patrol. The fa-
mous corps has done its work and has
lost its identity in the new national
force. The uniform has been pre-
served; the romance and esprit de
corps have gone.

Origin of the Corps.

For nearly two centuries the Hud-
son Bay company had ruled that vast
territory between Hudson bay and the
Rockies, when in 1870 the Dominion of
Canada acquired possession. The great
company had been a guardian to the
warlike Blackfeet, Assiniboines and
Cree Indians and kept in a fashion law
and order. The hardy Scotch factors
had in many instances married into
the tribes and their influence was pow-
erful and firm. Then came the change
in control. It became "no man's land"
with the great company without au-
thority and the dominion government
without any machinery to enforce its
edicts.

It was a dangerous period. The United
States government was seeking to
curb the fierce Sioux. They, in turn,
were making overtures to the Cana-
dian Indians to join them. The whisky
runner was unchecked in his debauch-
ery of the Indian. It was at this pe-
riod that the Royal Northwest Mount-
ed Police came into existence, and
since then have been the most potent
influence in preserving order in this
vast territory. Three companies were
mobilized at Winnipeg, or, as it was
then known, "Fort Garry." Three other
companies came through the United
States and joined them, and in all 500
men restored and preserved order in
a territory as large as Europe, without
a railway and peopled with nearly
100,000 Indians rent with tribal wars
and embittered against the whites by
the depletion of the buffalo herds, the
almost sole source of their existence.
It was then that the famous "scarlet
and gold" uniform was adopted. To
the Indian the "red" coat symbolized
the power of "the great white mother,"
and Colonel Robertson-Ross, organizer
of the force, suggested this uniform in
his report.

"During my inspection in the north-
west I ascertained that some prejudice
existed among the Indians against the
color of the uniform worn by the men
of the Rifles, for many Indians said,
'Who are those soldiers at the Red
river wearing dark clothes? Our old
brothers who formerly lived there
(meaning H. M.'s Sixth regiment)
wore red coats,' adding 'We know that
the soldiers of our great mother wear
red coats and are our friends.'"

And in this way, to impress the In-
dians of the plains, was adopted the
uniform that has given distinctive
identity to this famous corps.

From the Red river the new force
made its first long patrol. Through
what was then known as the Great
American desert it struggled for 800
miles, establishing posts, and finally
wintering at Fort McLeod, in the foot-
hills of the Rockies. From there its
activities spread, until now on Hud-
son bay, Coronation gulf, the frozen
Arctic and the desolate Yukon are
posts from which patrols keep watch.
By horse, canoe and dog train they
carry the authority of the law to the
 Eskimo of the arctic, the whalers of
Herschell island and the gold seeker
of the Rockies. In the last fifty years
they have brought the wild Indian into

"treaty," have made the cattle rustler
or whisky runner only a name, and in
the Klondike rush that seething min-
ing camp of Dawson was as safe as an
eastern hamlet. During the regime
of the riders of the plains Canada's
western domain passed from a country
of tribal conflict through the railway
stage, when our first great transcon-
tinental was thrown across the prairie
without provoking strife with the ori-
ginal owners of the country, to the pe-
riod of peaceful settlement and the up-
building of modern cities, and in these
varied stages the famous force adapt-
ed itself to the conditions without loss
in effectiveness or of the sincere re-
gard of the complex population.

Won the Indian.

In dealing with the Indian tribes the
Royal Northwest Mounted police did
invaluable service. They won not only
the confidence of Indians in Canada,
but also of the fierce Sioux who sought
refuge in Canada after the Custer
massacre. They made treaties and
kept them.

When Pie-a-Pot, a warlike Cree
chief, came south with his band and
held-up the construction of the Cana-
dian Pacific, a sergeant and constable
of the police arrived, entered the hos-
tile camp, arrested the old chief sur-
rounded by his braves, and landed him
in jail. He was a good Indian after-
wards, keeping his treaty during the
halfbreed outbreak in 1885.

The most famous international case
was that of Sitting Bull, the noted
Sioux chief, who in 1876 had wiped out
the command of the brilliant, impetu-
ous Custer. Chiefs White Eagle, Little
Knife, Black Moon, and finally the no-
torious Sitting Bull, crossed the line.
Including their families nearly 4,000
fierce Sioux were in Canadian terri-
tory, and to see that they did not use
Canada as a base against the United
States or inflame our own Indians
there were in that area only 200 police.
Inspector Walsh rode alone into Sit-
ting Bull's camp and read the riot act
to him. Surrounded by his braves the
fierce Sioux threatened the inspector,
who placed his revolver at the Chief's
head and told him plainly that if there
was trouble there might be a new in-
spector in the police but there cer-
tainly would be a new chief of the
Sioux. When, finally after years of
constant watching, Walsh prevailed on
the Sioux to surrender to the United
States authorities, Sitting Bull gave
Walsh his war bonnet in recognition
of the "bravest man he had ever met."
Even during the rebellion in 1895 the
great tribes remained true to the po-
lice and only a few joined with the
Metis under Louis Riel. It was the
respect that the Indians had for the
"scarlet and gold" that saved western
Canada at that period from greatest
disaster.

Deeds of Individual Bravery.

It was not alone in keeping the In-
dians in check that the police showed
bravery and tact. Col. Sam Steele, who
commanded the Strathcona Horse in
South Africa, rose from a sick bed,
faced and arrested the ringleaders of
several hundred infuriated armed rail-
way strikers in the Rockies.

But it was in the long patrol of the
terrible North that the best traditions
of the force have been preserved.
They plunged into these unknown
wastes, hundreds of miles, sometimes
alone, sometimes in pairs, facing an
arctic winter to rescue the unfortu-
nate or capture the wrongdoer. Deeds
were done that, if in other fields, would
have won the highest decorations.
Many won through, but others sleep
in that Northland waste, martyrs to
duty. On the Fort Resolution and
Dawson patrol, in 1911, Inspector Fitz-
gerald and three companions lost their
lives. Fitzgerald failing to arrive at
his destination, Dempster was ordered
to find Fitzgerald with instructions:
"Bear in mind, nothing is to stand in
your way until you get in touch with
this party." Dempster started into
the wilds of the terrible arctic winter
and, hundreds of miles from the post
of civilization, found Fitzgerald's com-
panions lying together, with hands
crossed and faces covered. Fitzgerald
had cared for his comrades until they
died, and even after death. Then he
pushed on, but was found with diary
and mail bag under his body, protect-
ing it to the last. In his pocket was
found his will, written with a charcoal
stick, leaving everything to his mother
and concluding: "God bless you all.
F. J. Fitzgerald, R. N. W. M. P."

He, like many others of the force,
had paid the penalty of the arctic pa-
trol. It took Inspector French two
years and an arctic patrol of 5,000
miles to investigate the murder of Red-
ford (American) and Street (Can-
adian) by Eskimo within the arctic circle.
He found the Eskimo had
acted in self-defense and no ar-
rests were made. Inspector La Nauze
chased the Eskimo murderer of Fa-
thers Rouvier and Le Roux through
the islands of the Arctic ocean, but
finally arrived in Edmonton with his
prisoners. They were found guilty,
but the sentence was commuted to
imprisonment for life among their own
people, which means living under po-
lice supervision. They were in-
capable of realizing the seriousness
of their crime. Leaving Edmonton to
go back to arctic solitude they cried
like children on being separated from
the big inspector who had captured
them and brought them to trial. Now
a police post on Coronation gulf has
been established, and these simple
children of the North are learning re-
sponsibility.

Always Did Their Best.

Struggling through the arctic wilds
a lone policeman has brought a maniac
strapped on a dog sleigh to civiliza-
tion. Alone with the madman facing
the most terrible storms, he has won
through.

But all do not win through, as shown

SUPERVISION OF WOOL IS ENDED

Four or Five Steps Necessary to
Finish Work of War Industries
Board.

SETTLE WITH 3,865 DEALERS

Reports Must Be Audited, Analyzed
and Excess Profits Determined and
Disbursed—Refunds in Many
Cases Will Be Small.

Washington.—The department of agriculture is winding up the affairs of the domestic wool section of the war industries board. This work involves four distinct steps, and it seems probable that a fifth will be necessary.

The first step is to secure, on forms furnished by the department, sworn reports from the 3,865 country dealers and the 179 distributing dealers to whom the war industries board issued permits to deal in wool of the 1918 clip.

The second involves the auditing of these reports in detail to determine whether the methods pursued and the profits made are in accordance with the regulations.

The third is the collection of excess profits from those persons or firms whose reports, after auditing, show that such excess profits were made. As rapidly as they are received by the department, all remittances for excess profits are being deposited as a special fund in the treasury of the United States.

Disbursing Excess Profits. The fourth is a careful analysis of each report which shows excess profits with a view to working out the fairest possible method of distributing such profits. After this is done, the department proposes to disburse the excess profits by check of its own disbursing officer drawn on the treasury of the United States.

The fifth step will be an audit, in the field, of the books and records of dealers whose reports for any reason seem to make this course advisable.

The first division of the work has been very nearly completed. A relatively small number of approved dealers have failed to make reports, and it is believed that the transactions of many of these were so small as to be practically negligible.

It has been discovered that several hundred wool dealers carried on their business as usual during 1918 without obtaining permits. As the names of these dealers have been ascertained, they have been required to furnish reports similar in respect to those required from permit holders and to pay over their excess profits whenever it appears that they have made more than the regulations allowed. In other words, they are not allowed to derive any advantage from having operated in ignorance or violation of the regulations.

The discovery of many of these unauthorized dealers was impossible until the reports of the 179 dealers in distributing centers were audited, since the entire wool clip of the country eventually passed through their books either as purchases or consignments.

The second division of the work, that of auditing the reports received, is progressing rapidly as the force available will permit, and the collection of excess profits proceeds as the audit of each separate case is completed.

Pay All at Same Time.

As rapidly as excess profits are received from any dealer they are apportioned to the individual growers to the extent to which their identity is disclosed, but the actual payments are being withheld until the collection of excess profits is more nearly completed. In order that practically all the growers may receive their checks at approximately the same time.

The reports of many country dealers show no excess profits. Relatively small amounts of excess were made by most of the others, and the refunds to individual growers in many cases will be very small. In other words, the refunds will amount in the aggregate to several cents per pound upon all the wool which the dealer handled.

"The greater part of all excess profits," according to a report of the department, "appears to have accumulated in the hands of certain distributing center dealers who purchased largely through direct agencies in producing sections. Many of the distributing center dealers, who handled wools on consignment only and whose profits were necessarily limited to the commissions paid by the government, appear to have no excess. In the discussion of this subject in press, the fact that nearly two-thirds of the wool clip of the country is so-called territory wool from the Western and Pacific coast states, which was handled almost exclusively on consignments, and therefore furnished no opportunity for the accumulation of excess profits, has, to some extent at least, been overlooked."

Gift Costly to Give.

London.—Giving a desecrating case on credit cost a Tower Bridge man \$20. The delighted recipient gave him a "pat" on the shoulder which knocked him through a plate glass window. "Good you didn't give him \$100," observed the man's wife, "and the unlucky philanthropist to pay for damages done."

The way to help others is to keep out of their way.

MAKES LONDON-PARIS FLIGHT

Mrs. Frank Case, acknowledged to be one of the best dressed women in New York, has won the distinction of being one of the first two New York women to make the flight from London to Paris in French company airplanes. Mrs. Case narrowly escaped injury several times during her work as a Y. M. C. A. worker.

TO RESTORE LENS MINES

Pits Not Expected to Produce Any
Coal Before 1921, Survey
Shows.

Paris.—Although all possible efforts to reconstruct the war-shattered mines of Lens have been and are being made, there is now no hope that a single ton of coal will be extracted before 1921. In fact, the task of bringing back Lens to its former prosperity is so immense that it is not expected the town and the mines will return to anything like their former state before 1925 or 1929.

Provided that the work can be carried on without interruption, it will take all 1920 to clear the underground workings of the debris with which they were choked by the Germans. Most of the workings, and all the deeper ones, are flooded.

A plan for drawing off the water has been arranged. The reconstruction and repair of the tubbing will be carried out by German workmen, and the cement for the purpose will be brought from Germany. The pumping out of the mines is expected to take at least three years. It is hoped that by next year it will be possible to extract coal from the first galleries, which are only 600 feet deep, but it is not expected that the water will be pumped out of the lower workings, which run down to 2,250 yards, until 1923 or even 1924.

The railways in the Lens district will not be completely repaired till 1921. Of the 800 workmen's dwellings belonging to the miners' society, not a hundred can be repaired.

Ancient Eccentric Had Spent Life Outdoors

St. Louis.—St. Louis has just lost a singular character in "Old Dad" Merton at the age of seventy-one. He had always scorned the habits of humans such as sleeping in beds, wearing underclothing, or using a toothbrush, yet could display an unblemished set of teeth.

One of the chief amusements of the children in his neighborhood was to watch "Dad" bite through heavy glass and tableware or chunks of wood. In the summer time he slept in Forest park and in the winter wherever he could find shelter. He bathed daily when the weather was propitious in a suburban creek. Every fall he took a long walk to the Ozarks, which he referred to as his constitutional. He scorned sugar, cream or fresh bread, preferring hard crusts and the simplest fare.

Possibly he would have lived many years longer had not a fall downstairs at the home of a friend resulted in his death.

Millions on Lake Bottom.

Superior, Wis.—Enough pea coal to make those who might salvage it wealthy lies buried in the sands on the bottom of Portage bay, according to a dispatch from Houghton, Mich. Employees of a Houghton fuel company recently dropped a large clam shell to the lake bottom and the contents of the clam shell was found to be three-fourths pea coal and the remainder sand. Some years ago pea coal was not considered valuable for fuel, and it was dumped into the lake at this point to make room for larger and more valuable coal. No estimate of the amount of coal on the lake bottom can be obtained, but its value is said to amount into the millions.

Many a man is a decided bore who never used a corkscrew in his life.

"The whole prospects
and beauty of a
girl's life may de-
pend upon a be-

SMITH

Every woman cannot be beautiful, but fortunately there are many virtues which far outweigh beauty. Be that as it may, every woman may make herself attractive and pleasing. This in itself is a charm of no small importance.

Our modest part in the world's work is to inspire and suggest distinction in dress.

GRAND RELIEF FROM CATARRH

Mr. McClure says every one can get it just like he did. Three bottles of Drecto fixed him up fine.

Also took the ache out of his rheumatism and banished a severe case of constipation.

"I've found out from my own experience that it is foolish for people to be annoyed any longer by catarrh," said Mr. Charles F. McClure, of 2536 Mt. Pleasant Pike, Hamilton, O.

"I know what it is to hawk and spit and try to clear your nose, throat and head for a couple of hours every morning. I know what it is to have a constant dripping into my throat that keeps me constantly trying to clear it out. I also know what heavy breathing and unsound sleep catarrh causes, and the head noises too.

"But I also know after trying lots of remedies, what will go right to the seat of the trouble and overcome these annoying symptoms. Drecto will do it. Drecto did it for me, and it's foolish for people to suffer like this when this grand medicine is within the reach of everyone.

"Drecto also eased a bad case of aching rheumatic joints; got my bowels to acting regular every day, whereas, before I used to be severely constipated. This is great medicine and I strongly advise sufferers to give it a trial."

The only way to get rid of catarrh is through the blood. Drecto is taken up by the blood very quickly; carried to the weakened membranes and restores them to healthy condition. That's the secret of Drecto's power over catarrh. All good druggists sell Drecto and it is highly recommended in this city by Evans' Cut Rate Drug Store.—Adv.

RESCUED FROM A "FLU" SICK BED IN THREE DAYS' TIME

Joseph LePorel Tells How Wonderfully Nerv-Worth Accomplished the work.

This extraordinary statement was made a few days ago to the Nerv-Worth druggist at Erie, Pa.:

"Feister's Drug Store—I suffered from severe pains. Very feverish. Stomach and digestion in very bad condition. I was forced to my bed and remained there three days. At times I was burning up with fever and then I 'froze up' and knew I had to fight the flu."

"My wife read a statement about Nerv-Worth being such a great help to ward off this terrible malady, and she purchased a bottle. In a day or so I was out of bed, and am ready to go to work. Nerv-Worth certainly did all and more than the makers claim for it. It did its work effectively in my case and I advise all to use it and WARD OFF THE FLU."

from Cincinnati to Wilmington, Del. He had been called to Cincinnati by the death of his uncle.

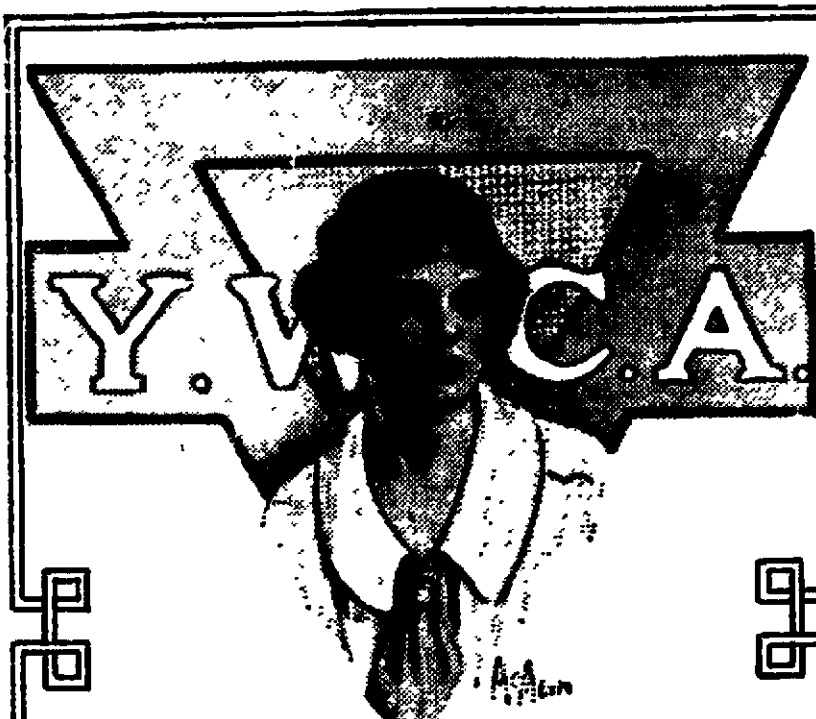

Mrs. Eva Lee is improving from an attack of the grip. F. G. Steele, who is quite ill, is improved today.

When Woman Proposes.
It was not long ago when Queen Victoria offered her heart and hand to Prince Albert, whom etiquette prevented from proposing to the queen of England, but Sir Robert Peel declared that his sovereign was "as full of love as Juliet," and the marriage, which was solemnized in last year, proved a union of perfect bliss.

If the crust of the earth were level there would be one great ocean two miles deep.

Into our show windows will give you an idea of the many beautiful things that are displayed in the store.

As soon as new merchandise arrives it finds its way into the windows, a guide or index, as it were, to what you may expect to find inside. Keep your eye on the windows. They are the barometer of style changes.

NEW! CORDICA

The very last word in fashion are these new patented "Cordica" coats, designed and tailored by one of New York's leading coat specialists.

They are fashioned from imported Scotch shawls and will appeal to every wise who likes smart looking apparel. They may be had in plaids or plain colors and are moderately priced at \$19.75.

OVERHEARD

"I've looked all over town, but could find nothing that pleased me so well as the suit I looked at here this morning." That's the remark one of our customers made yesterday afternoon when she returned to purchase the suit in question.

This same remark has been made to us dozens of times during the past two weeks, which only goes to show that comparison is still the true test of value and style.

7 YEARS AGO

In looking over our advertising files we find that seven years ago today we advertised Silk Poplin Dresses at \$4.95.

Those were certainly the good old days. \$4.95 now is just about the price of a good percale or gingham house dress. Times and prices have certainly changed.

CO-ED

The young miss and the woman who desires to retain her youthful appearance will be interested in our special display of Co-Ed coats and suits.

They are tailored by an exclusive maker of misses' apparels, in designs that accentuate the youthful lines of the figure in a way that cuts down ladies' sizes can ever hope to accomplish. You really should see them.

LIQUOR FLOWS ACROSS BORDER
Northern Section of Maine Being Flooded With Whisky From Canada.

LAWFUL SEIZURES ARE FEW
Comes Across Line in All Forms Into State Which Was Pioneer in "Dry" Laws—Many Ways of Fooling the Sleuths.

Bangor, Me.—The rate at which Canadian and Scotch whiskeys are flowing over the northern border into Maine proves that enforcement of the federal prohibition law hasn't got into its stride as yet, for never in all the history of theoretical droughts have oases been greener, more numerous or closer together in this pioneer dry state than right now, when there is more law than ever before, twice as many "enforcers" and increased penalties.

Trainmen who come down say that whisky of all grades and oceans of pure grain alcohol are flowing over the border at a hundred places, and that at four principal points the alcoholic invasion amounts to a flood. These four points are Van Buren, opposite the New Brunswick town of St. Leonards, on the St. John river; Fort Kent, which has easy access to the Canadian village of Clare via a suspension footbridge; Fort Fairfield, which is but nine miles distant from the New Brunswick town of Andover, and Houlton, which is a near neighbor of the provincial town of Woodstock.

Only Occasional Seizures.
Occasionally the revenue officers seize a wagon or sled load of whisky coming over the international bridge from St. Leonards or over the ice at some more obscure locality, but nothing is said about the great number of "booze" chariots that get by the government's lookouts and which keep the speakies of Aroostook or the barrooms of Bangor supplied. Also, the St. John river being frozen good and solid for its entire length, men and teams can cross anywhere in the river's 100-mile stretch along the border, so that, as the revenue men themselves admit, a standing army with sentinels every fifty feet would be required to shut out the flood.

There is so much more money to be made in bringing in "booze," even a few bottles at a time, that hundreds of woodsmen have quit swamping roads and chopping trees for the rum-running business, and ninety-nine in 100 of them, knowing the country thoroughly, get by with their goods.

Price of Canadian Whisky.
Canadian whiskeys that can be bought at \$3 a "short quart" on the New Brunswick side of the line sell in Aroostook county at \$6 and in Bangor at \$8, while genuine Scotch is \$4 in New Brunswick, \$8 in Aroostook and \$12 to \$15 in Bangor. Pure grain alcohol, to be had in New Brunswick at \$4 a quart, is "split" with water on this side of the line, so that every quart yields about \$16. With the addition of a little prune juice and burnt sugar, this alcohol is transformed into "American rye," supposed to have been brought in from Boston or New York "before the lid went on."

Whatever the outcome of the war on "booze," the enforcement of the law will be hardest in Maine, both on account of the state being cheek by jowl with Canada and on account of the seventy years' experience that the people here have had in devising ways and means of fooling the sleuths.

REGENERATE NORTH FRANCE
Large Sums Have Been Advanced to Restore Industries and Agriculture.

Lille.—Perceptible progress toward the regeneration of northern France is shown in reports just made public here. From Feb. 1 to Dec. 1, 1919, 1,250,000,000 francs were advanced to manufacturers, and nearly 2,000,000,000 francs were paid as compensation for war damages. Seed costing 18,500,000 francs and fertilizers worth 22,000,000 francs were bought for farmers, who in addition received 18,000 head of horses.

COURT UPHOLDS GOVERNOR.
Columbus, March 5.—The Franklin county appellate court today affirmed the common pleas court in sustaining Governor Cox in granting an extradition to return William Dean to California for prosecution on a charge of illegally obtaining \$9,000 from his cousin, Ethel Hur, formerly of Cleveland.

A stay until March 9 was granted, however, in order that Dean may carry his case to the supreme court.

OPTOMETRY—ITS VALUE TO THE PUBLIC.
By O. P. COOK.

The progress of Optometry, like that of every other profession, has been gradual but sure. Years ago, many readers will remember, it was a curiosity for those who required glasses to try their own choosing by trying on various lenses until a pair was selected that seemed to produce the most satisfactory results.

That was in the days before the accurate instruments at present employed by Optometrists were in existence, and the correcting of errors of vision was at that time a haphazard guess.

But with the tremendous amount of investigation that the subject of eye health has received in recent years, it was inevitable that the crude and imperfect examinations of former years would be displaced by scientific accuracy, and that a few years ago were dreamed of by even the most advanced Optometrists.

As a result of the investigations spoken of it was discovered that a surprising number of physical ills from which many people suffered were the result of abnormal vision. This fact greatly stimulated the invention of instruments that make Optometrical examinations at the present time singularly exact.

Pure grain alcohol, to be had in New Brunswick at \$4 a quart, is "split" with water on this side of the line, so that every quart yields about \$16. With the addition of a little prune juice and burnt sugar, this alcohol is transformed into "American rye," supposed to have been brought in from Boston or New York "before the lid went on."

Whatever the outcome of the war on "booze," the enforcement of the law will be hardest in Maine, both on account of the state being cheek by jowl with Canada and on account of the seventy years' experience that the people here have had in devising ways and means of fooling the sleuths.

REGENERATE NORTH FRANCE
Large Sums Have Been Advanced to Restore Industries and Agriculture.

Lille.—Perceptible progress toward the regeneration of northern France is shown in reports just made public here. From Feb. 1 to Dec. 1, 1919, 1,250,000,000 francs were advanced to manufacturers, and nearly 2,000,000,000 francs were paid as compensation for war damages. Seed costing 18,500,000 francs and fertilizers worth 22,000,000 francs were bought for farmers, who in addition received 18,000 head of horses.

COURT UPHOLDS GOVERNOR.
Columbus, March 5.—The Franklin county appellate court today affirmed the common pleas court in sustaining Governor Cox in granting an extradition to return William Dean to California for prosecution on a charge of illegally obtaining \$9,000 from his cousin, Ethel Hur, formerly of Cleveland.

A stay until March 9 was granted, however, in order that Dean may carry his case to the supreme court.

OPTOMETRY—ITS VALUE TO THE PUBLIC.
By O. P. COOK.

The progress of Optometry, like that of every other profession, has been gradual but sure. Years ago, many readers will remember, it was a curiosity for those who required glasses to try their own choosing by trying on various lenses until a pair was selected that seemed to produce the most satisfactory results.

That was in the days before the accurate instruments at present employed by Optometrists were in existence, and the correcting of errors of vision was at that time a haphazard guess.

But with the tremendous amount of investigation that the subject of eye health has received in recent years, it was inevitable that the crude and imperfect examinations of former years would be displaced by scientific accuracy, and that a few years ago were dreamed of by even the most advanced Optometrists.

As a result of the investigations spoken of it was discovered that a surprising number of physical ills from which many people suffered were the result of abnormal vision. This fact greatly stimulated the invention of instruments that make Optometrical examinations at the present time singularly exact.

ABOUT LOVE AND MARRIAGE
Signs Reveal Something, but Fact Remains That We All Have to Take a Chance.

No man is ever really in love who can say so with all the ease, ardor and ecstacy of a stage lover. No man ever loved a woman just because she was good. The man who says pretty things to his wife all the time may have had lots of practice either before or since his marriage.

The husband who never gives his wife a decent word or a compliment would knock down any other man who would treat her in the same way. The sincerest lovers are those who are tongue-tied, and don't know where to put their feet.

A man who seems very stupid in a crowd can often be extremely interesting in a dimly-lit, cozy corner with only one other person present.

There are two kinds of courage—the courage of the lightning, which prompts a nice young man in white ducks to jump overboard after a girl's handkerchief, and the real courage that makes a man face the horrors of a fashionable wedding, the torture of meeting the bills of a housekeeping apartment, and the agonies of walking the floor all night with a baby. The two are seldom coupled in one young man.

The first wife of a widower never was such an angel as she seems to him after his second marriage.

A man is like a piece of cloth—warranted to wash—and matrimony is the laundry. It may improve him, give him starch and freshen him up, or it may take all the color out of him. You have to take the chances.—Philadelphia Inquirer.

GOLDEN HOURS NEVER FOUND
Stories of Vast Wealth Hidden in West Indies May Be Merely Romantic Tales.

The British West Indies may not be worth much in money, but they are rich in money tradition. It was the lure of these islands that brought the avaricious gold hunters of Columbus, way across the seas in search of the fabled wealth of the western isles. It was here that the brave British admirals went to "sing the king of Spain's beard."

Stories of sunken money-ships and buried treasures in and around the islands are numerous. Capt. Kidd, Morgan and many other famous buccaneers made the islands their rendezvous. Sir Walter Raleigh went there and so did the ill-fated Darien.

In later years the islands were fought over by the Spanish, British, Dutch and French. The latter were supposed to be very rich, but when the British drove them from the island they were unable to find the hidden gold.

An old negro, once told a story that renewed interest in this fabled French wealth. An old man approached her, she said, and asked directions to the grave of her mistress' youngest child. She told him and the man dug up the coffin. He opened it and took out three of four handfuls of jewels. He disappeared, after saying that he was a grandson of one of the old French pirates, who had concealed the jewels.

Etiquette of Snuff Taking.
The taking of snuff, which was indispensable to its period, has died out. The taking of snuff had a peculiar etiquette. A pinch pointed an epigram; it symbolized indifference, contempt and, on the other hand, the box extended in a friendly manner, expressed admiration, a desire for better acquaintance. The box was a refuge from idle questioners. A vigorous rap on the closed box put an end to argument.

The box itself was a work of art. It was adorned with precious stones, or paintings, or quaint mottoes. When a monarch wished to show his appreciation of a musician, artist, poet, he presented him with a gold snuff box filled with Louis d'or. When the practice was at its height, an Earl Stanhope reckoned that if a man took snuff for 40 years, two years of his life were spent in tickling his nose and two more to the blowing of it.

Power of Ideals.
It is hardly possible to estimate the power of ideals in human life. I am disposed to think there is no one who does not have his ideals, conscious or unconscious. Some there may be who are not clearly aware that they possess them, just as we all breathe and do many other things which we are not conscious of. But I am disposed to think that absolutely every human being really does have, hung on the walls of that room of his mind where dwells the wonderful faculty which we call the imagination, pictures, dim or clear, of what seems to him the most desirable kind of life—pictures of persons, whom perhaps he knows, or may have known in some past time, or if not that, then persons dreamed of, who represent to his thought the kind of life he would be able to live.
